Alexandria, VA 22313-1450

Dear Sir:

Applicants' representative submits herewith Form PTO/SB/44 Certificate of Correction listing three clerical or typographical errors, for which it is requested that a Certificate of Correction be issued. The requested corrections, which include the replacement of the word "search" with the word "start", the word "target" with the word "destination", and the phrase "node.(2008)" with the phrase "node (2008).", are to be made in col. 22, l. 55 of the specification.

During prosecution of U.S. Application Ser. No. 08/649,304, issued as U.S. Patent No. 5,832,494 ("the '494 patent"), Applicants attempted to correct these errors. Specifically, on April 10, 1998, Applicants submitted an Amendment After Notice of Allowance Under 37 C.F.R. §1.312 seeking to make these corrections to the specification. See p. 2. However, Applicants unintentionally, through a clerical or typographical error, identified "line 14" rather than "line 18" for the corrections. As such, while the Amendment was entered, these corrections to the specification were not made, which Applicants did not become aware of until just recently. Applicants note that the same

corrections were made in a divisional application of the '494 patent, U.S. Patent No. 6,233,571. *See* col. 22, l. 56; *see also* Preliminary Amendment, May 4, 1998, p. 6.

In view of the foregoing, Applicants submit that these mistakes were made in good faith and that the requested corrections do not involve any changes that would constitute new matter or require further examination. Accordingly, Applicants respectfully request that the Commissioner issue and forward a Certificate of Correction to the undersigned attorney for Applicants in due course.

Please charge the fee due under 37 C.F.R. § 1.20(a) and any other fees deemed due for this submission to our deposit account no. 02-2135. Please credit any overpayment to our deposit account no. 02-2135.

Respectfully submitted,

Date: 10-25-11
